

PRIORITISATION

Common 'to-do' list Apps

TICKTICK

Organise tasks as lists, tags, due dates, and priorities, also add subtasks to any tasks. Inbuilt Pomodoro Timer, an Eisenhower Matrix to organise tasks based on urgency/importance, integration with various 3rd party calendars to see tasks and appointments in one place, plus time-blocking.

[Windows, Mac, Android, iOS](#)

TODOIST

Create, organise, and prioritise tasks, set and change deadlines, receive reminders, and set project goals. Measurement and Reporting to track your progress, daily to-do list. Add new saved Slack messages as tasks. Delegate tasks to others with cross-platform Kanban board type interface. Works on multiple platforms.

[Windows, Mac, Android, iOS](#)

GOOGLE TASKS

Add tasks, set deadlines, create lists, sub-tasks, descriptions, drag an email from Gmail to create a task, see tasks on Google Calendar.

[Web, Android, iOS](#)

ANY.DO

Add tasks, organise into lists and sub-tasks, prioritise, add deadlines. "Plan my Day" feature to schedule tasks, integrates with Google and Outlook calendars so tasks and appointments are in one place. Kanban boards, delegate tasks.
